SINGLE-USE INSTRUMENTS

Our instruments are:

- Quick and easy to set up and use
- Prewrapped in a range of convenient kits and instruments
- Sterile at the point of use
- Convenient to dispose of in sharps container
- Reducing the risk of sharps injuries
- Sharp where needed, ensuring the highest quality of treatment for every procedure
- Implemented to significantly reduce the risk of cross-contamination
- GS1 compliant with removable tracking labels
- CE certified
- Supplied with 5 year expiry from point of manufacture

MDDI can increase revenue by:

- Minimising decontamination cycles per shift - reduces expenditure on consumables, test kits and utilities
- Putting the RDN back chairside to assist the dentist and patient
- Increasing the number of patients seen in each clinical session
- Improving clinical efficiencies allowing for longer treatment plans and procedures
- Improving the patient journey

Sterile, Single-Use DIAGNOSTIC Kits

Our MDDI diagnostic kits were adopted into the following sectors more than 20 years ago. We have continued to expand our range due to the ongoing popularity of our instruments.

School
Clinics

Government
Hospitals

Flying Doctors
Service

Mobile
Dental Units

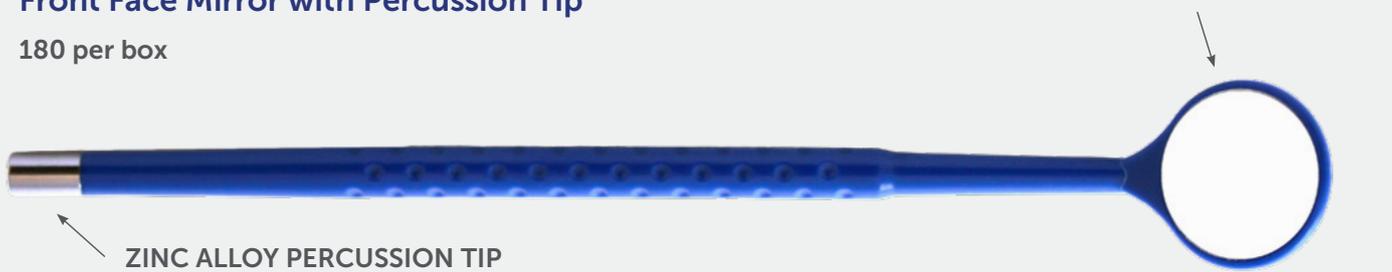

Our *diagnostic instruments* are high quality, precision made instruments. The probes and London College Tweezers are manufactured from stainless steel and all of our handles are ABS plastic.

Sterile, Single-Use RESTORATIVE Kits

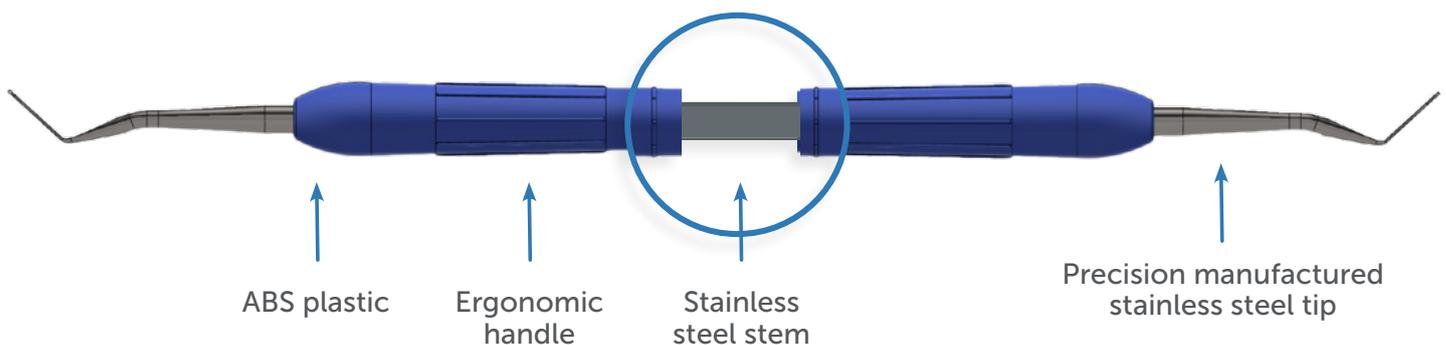

Labour costs make up a significant portion of a clinic's annual budget with sterilisation of equipment a major contributor to the daily workload. *This is where our kits can make a difference.*

Save time in the steri room

Save money on equipment and supplies

Improve infection control

Our restorative instrument handles are moulded around the stainless steel core, ensuring the instruments display strength when required.
